Comparing Allergies

The video "I Use a Robot to Go to School" and the article "Sit, Stay, Save My Life!" both tell about some great helpers for kids with severe allergies. In this activity, you'll compare the stories.

Directions: Watch the video "I Use a Robot to Go to School," and read the article "Sit, Stay, Save My Life!" Think about the problems that Lauren's and Grace's allergies present and how they deal with these problems. In the left circle, write details that apply to Lauren. In the right circle, write details that apply to Grace. Where the circles overlap, write details that apply to both.
